

Alysson F Victoria

WEB DEVELOPER

My contact with the area since my childhood. I've always liked online games and this made me learn how to configure my environment and solve problems in Windows from an early age. Furthermore, I learned web development on my own, creating some websites (<https://aline-fotografia.vercel.app/>), (<https://alysson-victoria.vercel.app/>). I also developed some projects at college involving configuring the work environment using Docker on Linux and developing native applications in C.

TECHNOLOGIES

Linux, Javascript, NextJS, TailwindCSS, CSS, SASS, BootStrap, PHP, LARAVEL, REACT, HTML, Git, MYSQL, SQL SERVER, C, TypeScript.
